A HELPFUL GUIDE TO FILLING OUT A

STAGE CARPENTER'S REPORT

1 *Presentation* – Fill in the official name of the show (the name that is printed on the tickets)

2 *Venue* – Fill in the complete name of the venue where the show is being performed.

3 *Date* – Fill in the day's date. Make sure you put in the name of the Day, the month, the day, then the year.

Example; Sunday October 14 2001 (By putting in the name of the day, it reminds the payroll office of overtime days , holidays, etc.)

4 *Licencee* – Fill in the complete, official name of the company or group that is putting on the show. Just putting in the initials is not good enough. For example, does **V.C.C.** mean Vancouver Community College, or Vancouver Cultural Centre, or Vancouver Convention Centre, or Vancouver Career College, or Vancouver Chinese Church ? It is difficult for the payroll office to try to guess what Licencee you are talking about if you don't put in the full name.

5 *Address* – Fill in the full address, including the postal code.

6 *Contact* – Fill in the name of the person who is totally aware of the costs and is authorized to make payment for these costs, or a representative. First and last names.

7 *Tel #* -- Fill in the phone number of the contact person. This should be an office number, a cell number , or a home number, and it should include the area code. If available, include a fax number.

8 *Estimate required* – Tick *yes* if the licencee is going to pay the bill the day of the show, and needs to know the total cost, or if the licencee wants some idea of the costs, for future payment. Tick *no* if none of the above is needed. (The licencee may already have an estimate from the Technical Director.)

9 *Collection required*— Tick *yes* if the licencee is going to pay the bill the day of the show. In this case, there are two ways to go. The Stage Carpenter can present an estimate of cost to the licencee, and collect the money. The estimate may be the one the T.D. has completed, or the one the Stage Carpenter has completed. The Stage Carpenter must give the licencee a receipt, and deposit the money into the wall safe in the Stage Carpenter's office. If arranged ahead of time, the other option is to take the bill to the box office, present it to the person in charge, and they will hold the money back until presented with a final bill. Tick *no* if the bill will be paid at a later date.

10 *Cash/Cheque/VTC*—Tick the one that describes how payment is made. Cash/Cheque means the cash or cheque is in the wall safe, and VTC means the money is being held for a final bill at the box office. Arrangements would have to be made in advance in order to accept cheques.

11 *Steward* – Fill in the name of the person on the show elected to be the Shop Steward for I.A.T.S.E.

12 *Report to follow*—This seems to have two uses. It could mean that there was a problem on the show, and a Steward's report will follow. It could also mean that the show you are working on is longer than one day, and there will be other Stage Carpenter's reports to follow. So on the sheet , just below the little box, it reads ***report to follow.*** So if you want to make a note about a Shop Steward's report, just write in ***Steward's*** before the words ***report to follow.*** If you want to make a note about future Stage Carpenter's reports, just write in ***Carpenter's*** before the words ***report to follow.***

13 *Employee*—Fill in the full first name and the full last name of each employee. To make sure the spelling is correct, you can ask the employee, or check for their name on the latest I.A. phone list. If the employee is new, give them a T.D.1 to fill out and hand it in to the payroll office with the Stage Carpenter's report. The payroll office for the Trust account is at the Queen Elizabeth Theatre, third floor. After office hours, the reports can be put in the wooden box, located on the landing just behind the stage door booth, in the slot marked *From Orpheum*.

14 *Code* - Fill in each employee's title or position in abbreviated form. The list of all the positions and abbreviations is at the top of the Stage Carpenter's Report.

15 *From/ to* - Fill in the employee's times using the 12 hour clock. NOT the 24 hour clock. It saves the payroll office from converting 24 hour back to 12 hour. Enter A.M.s and P.Ms in the *stage use* part of the report on the bottom left side. Try not to include the A.M.s and P.M.s in the employee's times, unless absolutely necessary. This keeps the report from getting too messy. The times entered in the *employees* part of the form, should be the actual times the employees were in and out , to the half hour. The times entered in the *stage use* part of the form (bottom left section of the form) should be entered to the minute.

16 *Stage use* - All these times (set up, reh, pre show set, house open, performance, clear stage) need to be filled in up to the **minute.** The *From* **and** ***To*** must be filled in. All time for the whole day must be accounted for. The payroll office uses these times for rental charges. The times entered here must have A.M. and P.M. after them.

17 **A few notes**—These reports are quite expensive to produce, so please fill them out carefully.

--It does help to keep these reports filled out *up to the minute* so at the end of the day, nothing is forgotten.

--When entering times in the employee section of the form, enter times *on the hour* or *on the half hour.*

--When entering times in the *stage use* part of the form, enter the times *to the* ***minute.***

--Press hard, you are making an original and 3 copies. The white, blue, and pink copies go to the payroll office as soon as possible. You can keep the yellow copy for your files, or hang up in Carp's office.

--When you are finished the sheet, proof read all the names of the employees to see if they are all listed there. Double check their times to see if they are complete and correct. Proof read all the rest of the sheet. If it is correct, then sign your name.

--Remember, someone has to read and decipher everything you have written down. Try to make it as easy for payroll as you can. They are not mind readers. If they have to phone you at home to find out what you really meant, and then have to make all sorts of corrections for you, then it is possible the paycheques could be held up for a while. This does not make stage hands too happy.

--If you have Show Calls, make a large note of the show call start time and end time. The start time should be one half hour prior to the scheduled performance start time. The show call end time should be to the last **completed** half hour prior to the final curtain. These should be the actual times you are claiming for *show call*, to the **half hour**.

--MAKE SURE THE PAYROLL OFFICE KNOWS WHERE THE MONEY IS !

--If there are two City Stage Carpenters and/or two City Stage Electricians on your sheet, make a big note on the report, so payroll can easily see it. (paint calls, etc.)

--REMEMBER---------**NEATNESS COUNTS !!!**

18 *Signature* -- Make sure your report is correct and true. You are signing the Stage Carpenter's Report as a witness to the working times recorded. Your honor and reputation are in your signature.

-------Check page 3 for locations of notes above
-------Check page 4 for some examples of entering different times
-------Check page 5 for several examples of the finished look of a completed report.
